
PROFESSIONAL DEVELOPMENT REIMBURSEMENT POLICY

Continued professional development is a key component of Sage Oak Charter Schools' ("School") mission, vision, and core values. If funding allows, the School will reimburse staff for the direct costs of obtaining additional credentials and/or certifications that are predetermined by the School to be an area of need based on the following Policy. This Policy does not provide reimbursement for an initial teaching credential or certifications required for hire.

Eligible Professional Certifications/Credentials and Maximum Reimbursement

A list of professional certifications eligible for reimbursement will be determined by the administration to support the business needs of the School. The maximum reimbursement and list of incentivized credentials and other public school industry-standard certifications will be maintained by Human Resources and included in an exhibit to this Policy.

Required Conditions

In order to be eligible for professional development reimbursement under this Policy, the following conditions must be met:

- A. The employee must be a full-time or part-time regular employee. Substitute or seasonal employees are not eligible.
- B. The employee must have successfully completed at least a 6-month period of employment with the School prior to application and as determined by the employee's evaluation.
- C. The credential or certificate pursued must be directly related to maintenance or improvement of the job skills required by the employee's position and must be approved by the leadership advisory council in advance. The credential or certificate must pertain to the employee's current position with the School and be utilized to the maximum extent needed by the School to be eligible for reimbursement.
- D. The credential or certificate sought cannot be part of a program of study that will qualify the employee for a new trade or business. If the education in question qualifies the employee to perform significantly different tasks and activities that they could perform before the education, then the education is deemed to qualify the associate for a new trade or business.
- E. The employee must not have written discipline in their file within the last six (6) months.
- F. The reimbursement applies to: conference registration, books, exam fees, and/or tuition. Reimbursement may not be used to renew required professional licensure or credential or for education needed to meet the minimum education requirements of a trade or job position.
- G. Course time must not adversely conflict with work schedules.
- H. The employee must initially submit a request for reimbursement (available upon request with the Human Resources department), be approved in advance by the leadership

PROFESSIONAL DEVELOPMENT REIMBURSEMENT POLICY

advisory council, and then submit verification of successful completion of the credential or certificate within thirty (30) days of receiving the new certification to Human Resources along with receipts showing proof of payment of the reimbursable expenses.

- I. Employees are not entitled to reimbursement for an existing certification or additional requirements for a new certification beyond what was initially approved.
 - a. Approval for reimbursement does not entitle the employee to continued employment with the School nor to any remaining balances of reimbursement if employment were to end prior to payment of an installment.
 - b. While all approved applications will be reimbursed if all requirements are met, the Policy may be reduced or eliminated at any time without prior notice.
 - c. School will not include as wages in an employee's Form W-2, Wage and Tax Statement, or otherwise, the amount of any educational expense reimbursement timely and properly substantiated in accordance with this Policy. *See IRC Section 132(d)*
 - d. Under no circumstances will School reimburse an employee for educational expenses that are not properly substantiated in accordance with this Policy.

Reimbursement Installments

The total reimbursement for each certification or CTC credential will be determined by the School based upon the number of current demands for reimbursement and the School's budget. The reimbursement may not cover the total expenses incurred by the employee depending upon the cost of a program, coursework, exams, etc. The employee assumes responsibility for any costs that the reimbursement may not cover. Reimbursement will only be provided for verifiable expenses incurred.

Reimbursements will be distributed as follows:

- 1) Reimbursement is typically half the amount of the total cost of the credential or certificate approved by the School, but may be more, and will be processed with the next applicable payroll run after the submission and approval of all appropriate paperwork to HR, including verification of successful completion of the credential or certificate and receipts showing proof of payment of the reimbursable expenses.
- 2) The employee may apply to receive a second reimbursement installment if:
 - a) There is a remaining balance in tuition/cost of the program completed; *and*
 - b) The employee completes two additional years of full-time academic service in the same or equivalent assignment for the School; *and*
 - c) The employee has kept the certification current and made significant progress toward recertification, renewal, or clearance, as applicable.

PROFESSIONAL DEVELOPMENT REIMBURSEMENT POLICY**Repayment**

Employees must reimburse the School for all reimbursements per this Policy in the event the employee, for whatever reason: 1) fails to submit a receipt for payment of credential or certification fees within thirty (30) calendar days of issuance of their additional credential or certification; or 2) terminates employment, voluntarily or involuntarily, within two (2) years after completion of the additional credential or certification.
