
MATHEMATICS PLACEMENT POLICY

Sage Oak Charter Schools (“SOCS” or the “Charter School”) adopt this Mathematics Placement Policy to apply to all students who wish to enroll in Algebra I or Integrated Math I.

Sage Oak Charter School, in accordance with the Math Placement Act of 2015, will follow the 9th grade level mathematics course placement policy listed below:

Students must meet two of the four below indicators to demonstrate readiness for Algebra I or Integrated Math I:

1. Score ‘At or above grade level’ for 8th grade on a local assessment (iReady)
2. Student’s CAASPP results indicate ‘standard met’ for 7th or 8th grade math
3. Midterm/Final Exam math grade of ‘B’ or better
4. Teacher Recommendation

If the student does not qualify based on the above criteria, the student may be reassessed or provide additional evidence of readiness. A parent/guardian may appeal a placement decision. Appeals shall be reviewed by the Charter School, and a final decision will be communicated in a timely manner.
